

DAILY NEVADA STATE JOURNAL.

VOL. LVII.

RENO, NEVADA, WEDNESDAY MORNING, OCTOBER 16, 1901.

NO. 14.

TERSE AND TO THE POINT

Little Bits of Items, but Still Worthy of Mention.

Judge Jones of Austin is holding court in this city.

More men are being put to work in the Senator mine at Steamboat.

A trainload of sheep came in over the "Great Northern" yesterday.

J. E. Jones is erecting a store building between the Court House and the Riverside Hotel.

William Treib has purchased the Arcade bootblack stand. His ad will appear in a day or two.

Arthur Beebe, the sanitary plumber, has gone to work for Ed. Schmidt. Watch Mr. Schmidt's new ad.

Fresh oyster cocktails every day at Thyes' saloon. Choice Olympia oysters and the finest dressing.

James Kell of San Francisco and Sarah LeClerc of Mountain View, Cal., were married yesterday in this city.

Judge Julian is in very poor health. He will probably be taken to San Francisco in a few days and placed in a sanitarium.

The entertainment to be given by the Three Links, for the benefit of the Old Fellow's Orphan Home fund, has been been changed to Friday, October 25th.

Hammersmith Case Is on.

Yesterday the case of State of Nevada vs. Wm. J. Hammersmith, charged with burglary, was called in the District Court before Judge Jones. Some difficulty was experienced in securing a jury. The entire panel, with the exception of five talesman, was excused.

District Attorney Pike is prosecuting the case. The prisoner is being defended by Frank Norcross and F. D. King.

As the prosecuting witness, J. J. Quinn, is unavoidably absent through sickness, a motion was made to admit the testimony he gave at the preliminary examination and which was recorded in shorthand.

The District Attorney, Judge T. E. Hayden and John Hayes were examined on the physical condition of the prosecuting witness to prove his inability to be present. The motion was taken under advisement.

Next Bill at McKissick's.

"Happy Jack," the rover, who claimed to be the "star truck rider of the world" made a "hit" on the stage, but he wasn't in it with "Weary Willie," the intelligent, thinking, loyal, all round "hobo" hero of "The Convict's Daughter." This sensational scientific, wonderful melo-drama will be the bill at the Opera House, October 22d. "Willie" is one of the principal characters and he is recommended as "all right." He is a true-blue, square vicious villain, known as Blackadder.

As his name applies he is something of a serpentine villain, who makes a

lot of trouble for "Willie," who finally wins in the fight and inherits. The plot of the play contains a fascinating love story, heart interest throughout, various scenic sensations and all those elements that form a play of absorbing interest and that creates enthusiasm. The sombre features of villainy and prison life are relieved by bright sparkling comedy. There is a melody in brooks, lectures in trees and stones. In this melo-drama there is a five-act panorama of human nature and a healthy moral lesson.

Enterprising Mr. Levy.

With laudable enterprise the New Tivoli saloon took full reports by rounds of the fight last night. While the mill was in progress the saloon was crowded with sportsmen. The Journal is indebted to Proprietor Levy for the returns of the fight, which appear elsewhere in this paper.

Mail Clerks now Stopping Here.

Yesterday the order issued by the mail department, making Reno an end of a division for postal clerks, went into effect. The divisions are now from San Francisco to Reno and from Reno to Ogden. The first batch of railway mail clerks arrived yesterday.

Between fifty and sixty clerks will now lay over here at the end of their runs. There has been a hasty scurrying for houses and rooms. Nearly all the clerks have been provided for. This change will be a vast benefit to Reno.

A liberal percentage of this large payroll will now be distributed in this city and will put a couple of thousand dollars more into circulation every month.

A Larger Smelter.

In all probability a thirty-ton Vulcan smelter will be erected in this city and run on the custom plan. The present smelter has proven entirely too small for the demands made upon it.

The Senator Co. Sinking Rapidly.

The Senator Gold Mining Company at Steamboat is making rapid progress with its double compartment shaft. It is being sunk at the rate of four feet a day. The shaft is being substantially timbered. No hot water has yet been encountered, but all precautions are being taken. A drill hole is kept six feet ahead of the miners in order to tap any subterranean cavities that might contain boiling water. Thus the work is made safe for the miners. The steam hoist is working very satisfactorily.

Organization of the Monument Committee.

The ladies and gentlemen composing the McKinley Monument Committee met yesterday and organized, electing H. P. Kraus, chairman; Mrs. John Michaels, secretary; and R. L. Fulton, treasurer.

Judge A. E. Cheney, Mrs. Oscar J. Smith and Mrs. J. E. Stubbs were appointed a committee on information regarding the cost of a suitable monument to the memory of President McKinley, and report to the general committee as soon as possible.

It. L. Fulton, Oscar J. Smith and

Mrs. A. H. Manning were appointed to solicit subscriptions, make collections, etc.

If you have rooms to rent read the "Gazette's" classified advertisements. Jackets and capes at less than cost to get room. Call early at the Co-op. Store.

General Assembly.

General Assembly will be held at the University Gymnasium at 3:30 this afternoon. President Stubbs will deliver the address. A cordial invitation is extended to the public to attend.

Visiting the Mines.

A. L. Rice of the Gardenville Courier and Andrew Petegrew of Gardenville, were at Steamboat Springs the first of the week inspecting their mining claims. They made Reno a flying visit.

All the Comforts of Home, Sweet Home.

The depot hotel at Verdi has been entirely renovated and refurbished. The new proprietors are Messrs. Brearley, Unlacke and Golden.

This hotel is headquarters for commercial men and the general travelling public. The new proprietors are enjoying a large patronage.

Cupid Is Busy.

There is a daily average of two weddings of California couples in Reno. Those weddings are coming to be looked upon as a steady source of revenue.

Municipal Improvement.

Work on bituminizing Commercial Row will begin next week. The contractors are under heavy bonds to have the work completed before the first of December.

Winter's Flight Over the Sea.

J. H. Hamp, one of Reno's most popular citizens, leaves on the 1st this morning for San Francisco. He will sail on the 23d on the Sonoma for Australia, where he will spend the winter. Mr. Hamp's address will be Sydney, New South Wales. He expects to return in June. C. Hurley will accompany him as far as San Francisco and may also cross the water.

CARD OF THANKS.

We desire to acknowledge the sympathy extended to us by our friends during our bereavement and to thank them for their many kind attentions.

MRS. ED. LONKEY,
CORA DERBY,
EDWARD DERBY,
MRS. AND MRS. C. B. DERBY.

SAVE AN EXAMINATION FEE

By going to the Frank Golden Jewelry Store and having your eyes examined free of charge by the only graduate optician in Nevada. Glasses fitted and adjusted in a scientific manner.

WE QUOTE

Prices and a few items that will show you if you are a close observer of prices and quality that we are giving you the best goods for the money to be had in town these these are not leaders, but our regular prices every day in the week. We invite you to visit us.

NOVELTY DRY GOODS STORE.

AGENTS—Davis & Kirman, Carson City, Nevada.

(Entered at the postoffice at Reno, Nevada, as second-class matter.)

JOHN H. DENNIS, Editor

COULDN'T IF THEY WOULD.

CONGRESSMAN BABCOCK struck the key note of tariff reform when he said: "When any article can be manufactured in the United States cheaper than anywhere else and is an article of export, the duty produces no revenue and affords no protection, but simply enables those who secure control to make such prices as they see fit in the domestic market up to a point where it can be imported." That is the whole thing in a nutshell and might serve as a text for all of the tariff reforms in the country.

Congressman Babcock is a Republican, and some of the monopoly organs have read, or attempted to read him out of the party for his utterances, but he stands firm and has behind him the most respectable element of the Republican party in the north and middle west. Unfortunately, however, there are not enough Republicans in Congress of the Babcock stripe to carry through, with the aid of the opposition, any measure which is likely to afford the desired relief. The Republican party in Congress is in a most perplexing position, amounting practically to an inextricable dilemma. Although everything seems to indicate the forcing of the tariff to the front in 1904, the Republican majority lack the courage to undertake the job of averting it. Unquestionably it is in their power, theoretically, to do it by depriving trusts of their protection, and lowering duties wherever they hamper our trade abroad. But they do not dare to do it. There is too much division among them regarding the tariff. The monopolies want the present rates maintained to make their position secure. Business men who have learned that it is hard to sell our goods to foreign purchasers, if we do not buy their goods, want the rates lowered to promote trade. So there they are between his Satanic majesty and high water. President Roosevelt, as did President McKinley, evidently wants a reduction of the rates for the benefit of industry, but can do nothing to effect it. The question of reciprocity is being discussed, but many, and in fact most intelligent tariff reformers question its practicability. At best, it is but an experiment, and dangerous one at that. Discriminating between different nations is a ticklish business, and would be more than likely to involve our government in the worst kind of a muddle. Retaliation would most surely be the policy of the ignored nations and it would be a marvel if it did not prove folly as disastrous to American trade and to home consumers as the present conditions under the Dingley law.

The party is in a hole. The leaders fear defeat if they touch the tariff, and they recognize the danger if they let it alone. They begin to realize that the fat tried from the monopolies for campaign purposes is an expensive lubricator of the wheels of the party machine.

AN ANARCHY BREEDER.

No greater provoker of anarchy could be exploited, or even imagined, than the failure to renew the Chinese exclusion law, which expires by limitation next May. The labor troubles, which are many and bad enough as it is, would be multiplied a hundred fold by the influx of the hordes of yellow men that would flock to our shores as soon as the Golden Gate is opened to them. It would more than a hundred times offset all statutory enactment for the suppression of anarchistic acts and utterances, and the scenes of riotous lawlessness which would ensue are horrible to contemplate. The member of Congress who would vote against the enactment of the law would be, perhaps unconsciously, a greater enemy to law and order, or at least a greater encourager of sanguinary conflict than a hundred Mobs and Goldmans rolled into one.

GOVERNMENT OWNERSHIP.

No cause can be given why the government should not own and manage its own plant for the making of armor plate necessary for its battleships, except that such a course would interfere with the profit which the great steel concerns have been able to make out of Uncle Sam. Nor has this reason any more force than prevails against government ownership of navy yards and floating docks. As a simple question of public policy, uninfluenced by selfish considerations, it seems to be indisputable that the government should not be subjected to the greed and extortion, or incompetence of private armor makers, but should be in a position to meet its own demands, in this as in other respects. It would moreover, be an advantage to labor, as the same number of men would be employed and at better wages, so the workmen would receive a portion of the excess, which now is absorbed by the grasping trusts.

When the last batch of contracts were made by private parties, at excessive rates, it was urged that there was need of haste, and that the government could not set up its own works in time to meet the demands then pressing. But as soon as the contracts were signed, delays began, and the completion of important vessels has been postponed to suit the convenience of the armor mills. And now, the

government is at least as far off from getting its purchased armor as it is from owing its own mills.

BOB FITZSIMMONS the pugilist has taken out naturalization papers and is now a full fledged citizen of this universal Yankee nation. This will far more than recompense the country for the loss of Billy Astor.

JAPAN is considering the policy of allowing foreigners to own land in that country. There are other of Uncle Sam's doings that the Japs might more profitably imitate, that opening their doors to foreign land grabbing associations.

THE old wail is being renewed in some of the eastern papers in regard to small States like Nevada having the same representation in the United States Senate as New York, Pennsylvania and other of the larger commonwealths. Let them wail. The equal representation of States in the upper branch of Congress is the only thing that cannot be changed by amendment to the Federal constitution. The question was settled for all time in the constitutional convention and cannot be changed during the existence of the republic. So let them kick against the pricks. Sore toes will be the only result.

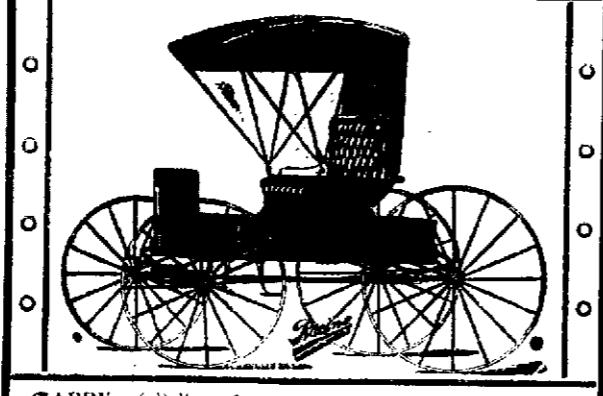

LEADING Republican Senators have announced that they will oppose ratifications of reciprocity treaties if they interfere with the present Dingley law. In other words, reciprocity doesn't go if the trusts and monopolies have to stand their share of the "recip." They must be taken care of at all hazards, and continue to be "protected" in such a manner as to enable them to continue to sell their products in foreign countries at less prices than are charged to home consumers.

IF cartoons lead up to the assassination of the subject of them, Uncle Sam would have been as dead as Julius Caesar years ago. He has been cartooned oftener and worse than any mythical or mortal personage in the United States—not even excepting William Jennings Bryan, of Nebraska.

ALL AROUND THE STATE

A Few Gleaned Paragraphs of Nevada News.

Three children from Eureka county were placed in the Orphan's Home last week.

Boring for oil will soon commence at Elko. The machinery is now on the ground.

The Sunset Telephone Company will extend its wires to Yerington next summer.

The Bluestone mine was closed down for twenty-four hours on account of the death of President Eaterman.

A fruit peddler, named Daniels, died suddenly of heart disease at Nordyke, Lyon county, last week and was buried at Yerington.

Dan Hickey has been held at Elko to appear before the United States Grand Jury on a charge of selling whisky to Indians.

The Lovelock Tribune states that the Cottonwood Nickel Mines, situated near Lovelock, will be worked by a company of capitalists from Canada.

Mrs. Mary J. Mack of Virginia City, grand president of the Rebekah assembly of Nevada, is visiting the lodges in the eastern part of this State.

About 700 head of horse in Newark Valley, Eureka county, have been sold to Eastern buyers. The prices paid are said to range from three to twelve dollars per head.

Encouraged by the example of several former young Comstock rounders, who now eschew the flowing bowl, it is understood that a white ribbon lodge will be instituted on the Comstock.

The Tuscarora Times-Review says that while Eddie Burns was on his way from town to his home in Independence Valley some unknown person took two shots at him with a rifle. The affair is a mystery.

Now that there is quite a force of men working at Bristol a market has been created for ranchers at White River and Cave Valley. There have been contracts let for furnishing hay, meat and produce.

Colorado parties have secured an option on the large deposits of tailings below Sulphur, owned by J. M. Douglas, and are constructing a small cyanide plant near the reservoir to make a thorough test of the material —Enter-prise.

A Los Angeles dispatch says that the Randolph Railway is to be extended to Keeler. The latter is a terminal point of the Carson and Colorado Railroad now owned by the S. P. Railroad Company. Chauncey M. Bowes is at the head of the syndicate, owning the Randolph line, which is controlled by officials of the New York Central. Rights of way for the proposed extension are being secured.

Trade Pointers.

Savage the plumber for plumbing, if stoves cheapest at Ed. Schmitt's. If fountain pens at Golden's jewelry store for \$1.

Cook and heating stoves at a bargain at Co-Op store.

The daily Journal is on sale at Harry Davis' Model store.

Savage handles Acorn stoves and ranges, also agate and tinware.

Fresh Eagle Brand Morgan City oysters for sale at Frank Campbell's. If.

Before buying real estate consult E. A. Sonnheiser, 712 Vine street, \$11-1m.

Plumbing, tinning, stoves; repair work, heat and cheap at Ed. Schmitt's.

Guns and ammunition, rifles, pistols, hunting outfit, cheapest at Schmitt's.

G. M. Bello & Co. make the best tennis in town. Next to Racket store.

A jacket and cape clearance sale at Co-Op store. Closing out new stock at cost. Call early.

First prize, best creamery cheese and butter at Co-Op store. Patronize home industry.

Cottage, ham, lard, bacon and groceries of all kinds for sale at Frank Campbell's.

Drop in the Sacramento beer hall some evening. You will be treated well and probably often.

Cooking utensils, lamps, crockery, fruit jars and cans; agate ware, sold cheap at Ed. Schmitt's.

Joe Simpson is feeding many hungry people at the Monarch Lunch Counter. He serves only the best in the market.

Thives does strictly a liquor business, carries the stock and can do better by you than any house in the town, give him a trial.

The Monarch Saloon Company is putting on extra barkeepers to draw its celebrated Anheuser-Busch. It is the only eastern keg beer in Reno.

Don't let your chimneys burn out and endanger your property. Hump & Sons will clean them thoroughly and at little cost. Masonic building Tel. red 195.

The Washoe Lunch Counter and bar have built up an immense trade by serving only the best to their patrons. Messrs. Chas. & Eddie are experienced caterers.

The Sunn saloon is the cosiest resort in Reno. The place is patronized by good, jolly people. The choice brands of liquors and cigars. Pringle & Carroll, proprietors.

Harry Davis, proprietor of the Model, has just been receiving a line of novelties that must be seen to be appreciated. He carries a choice assortment of sheet music. All the latest songs.

MINING IN THIS STATE

Culled News of Nevada's Most Important Industry.

Howard C. McRae has been commissioned a Notary Public in and for Ormsby county.

During the latter part of last week the April Fool Company of Dr. Lamar laid off a portion of its working force.

Searchlight now has two new mills and five mines with large quantities of ore of pay grade. There will be lively times at Searchlight this winter.

Work on the old Bullionville mine is going ahead and indications are very favorable of encountering solid ore. The ground, where work is being done, is filled with ore-seams and small nuggets of gold are found.

The Johnny although as yet is in its waddling cloth, has under the efficient management of Will Dooley, its secretary and manager, made a brilliant record for itself, having produced many thousands of ounces of the yellow metal.

The Republican claims that Truckee is in need of another shaking up by the "601." The town is filling up with bad characters, ladies are insulted on the streets, robberies committed nightly, and the place is again rapidly asserting its reputation of being the toughest village on the coast.

More rich strikes have been made in the Brooklyn at Contact. It is almost impossible to obtain the particulars, but from very reliable information we learn that the strikes were made last week and are of a most promising nature. The more the work progresses the more the permanency of the camp is assured.

A rich strike of native silver was made at the Ophir yesterday. The ore was encountered in a raise from the three hundred foot level west of the shaft. This ore is phenomenally rich, in fact it might well challenge the better of those who have not seen it, but nevertheless it is true, the ore is there, it is rich and there is a large body of it. —Sentinel.

SEEDS! SEEDS!

In order to facilitate the delivery of seeds, Mr. Newlands requests all those desiring a quota of seeds next spring, to send in their applications at the present time, thus assuring an earlier delivery than would otherwise be possible. Address all applications to Francis G. Newlands, House of Representatives, Washington, D. C.

CENTER STREET

Start Girls Right!

Many beautiful girls become invalids for life, because at the crucial period of puberty they pay no attention to the laws of health. Mothers should protect their daughters' health by giving them necessary information and proper treatment. When the measles come on a girl unaware in her inexperience she is either frightened into convulsions, or scared into trying to check the flow. Many girls have checked the flow and it has never started again. And as a result they have grown pale-faced, with "crow-tracks" on their cheeks, and dark hollows under their eyes. A dose of

WINE OF CARDUI

taken every morning after a girl is twelve years old will bring the menses on properly and keep them regular. It will help her to develop into an attractive womanhood and equip her for the duties of wife and motherhood.

All druggists sell \$1.00 bottles of Wine of Cardui.

The Hollywood, Ashbury Park, N. J., February 8, 1900.

I read your advertisement in regard to Wine of Cardui in the Baltimore American and I am so impressed with that on my visit to Baltimore I called on Dr. W. H. C. Clegg, a well known doctor. He was suffering from female troubles. She had been under the doctor's care for some time, and when her periods would come on her suffering was something terrible. I induced her to try it and the first dose brought on her period. She was greatly relieved. To use her own words, "It saved my life."

W. W. Clegg, M.D.

For advice and literature, address, giving symptoms, "The Ladies' Advisory Department," The Chattanooga Medicine Company, Chattanooga, Tenn.

MINING OUTLOOK IN OLD NEVADA

The Sagebrush State Is Becoming a Land of Promise.

Nevada in 1901 is receiving a renewal of the exploration activity of the early '60s. In this all sections of the State seem participating. Names of places that one could conjure with in the old one could conjure within the old days are again familiar, and again mean the promise of great mineral production, and new names are fast getting the significance the older ones have.

White Pine county, in the extreme east of the State, to the old miners will recall silver mines of vast richness, with their wealth close to the surface in easily reducible ores. Ely, Hamilton and Osceola were great camps once and may become even greater camps again.

Utah miners, with the money they have made in the mines of their home State, have lately been crossing the line into White Pine county in increasing numbers. Quite a number of old properties have been taken up by them, and the possibilities are for more fortunes in the gold and copper the old miners left behind than in the silver they took with them. Many causes are contributing under the surface to this new attractiveness of White Pine mines. They may all be comprehended in the one word "availability." The minerals were long since known to exist. Now they have become mines, because no way available. The processes of reduction of ores have simplified and cheapened in the interval. The transportation facilities have increased and cheapened and the metals sell for more than they used to.

Western Nevada has not been behind in receiving the same impulse toward increased mining activity. Mason Valley in Lyon county, than which nothing could seem more fitted for the home of the jack rabbit and the coyote, is discovered to be a region of considerable possibilities in copper mining. Quite a number of large operations have been started by Eastern and Montana capital largely. Smelters have been built and put in blast copper made. In the vicinity of the county seat—Dayton—there has been a revival of work in gold mines, which, but for the nearness of the Comstock, would long since have been largely developed.

Wood drives on the Carson river have been very closely associated with western Nevada mining. The Comstock region never contained much timber, and the near-by growth that could be used was early exhausted. Among other localities drawn on for wood, for fuel principally, were the forests in the headwaters of Carson river, in Douglas county, Nevada, and Alpine county, California. The wood cut there was floated the first stage of its journey in "V" flumes, and then in the Carson river to booms by the stamp

mills and railroads. These forests, too, have been almost completely used up by the mines. The power for the machinery that they furnished used as fuel now comes from water. Not the water of Carson river, which may later be so utilized, but the water of Truckee river has been harnessed into electric generation and transmission plants, and is to be made to do the work at Virginia City on the Comstock and at Reno on the new mines under development there. Walker river flows through Mason Valley, and it is quite within the possibilities to foresee the time when its flow in the upper mountain sections shall be utilized by power plants to do the work of mines in Mason Valley. White Pine county unfortunately has no such possibilities of cheap transmittable power. Its opportunities can, however, be made more valuable by the better railroad facilities through the projected extension of the railroad now ending at Eureka to Ely. This is only waiting on a determination of the extent of the copper ore bodies.—Mining and Scientific Press.

STEPPED INTO LIVE COALS.

"When a child I burned my foot frightfully," writes W. H. Eads, of Jonesville, Va., "which caused horrible leg sores for 30 years, but Buckle's Arnica Salve wholly cured me after everything else failed." Infallible for Burns, Scalds, Cuts, Sores, Bruises and Piles. Sold by S. J. Hodgkinson, 25 cents.

TOT CAUSES NIGHT ALARM.

"One night my brother's baby was taken with Croup," writes Mrs. J. C. Snider, of Crittenden, Ky., "it seemed it would strangle before we could get a doctor, so we gave it Dr. King's New Discovery, which gave quick relief and permanently cured it. We always keep it in the house to protect our children from Croup and Whooping Cough. It cured me of a chronic bronchial trouble that no other remedy would relieve." Infallible for Coughs, Colds, Throat and Lung troubles. Fifty cents and \$1. Trial bottles free at S. J. Hodgkinson's drug store.

A FIENDISH ATTACK.

An attack was lately made on C. F. Collier of Cherokee, Iowa, that nearly proved fatal. It came through his kidneys. His back got so lame he could not stoop without great pain, nor sit in a chair except propped by cushions. No remedy helped him until he tried Electric Bitters which effected such a wonderful change that he writes he feels like a new man. This marvelous medicine cures backache and kidney trouble, purifies the blood and builds up your health. Only 50 cents at S. J. Hodgkinson's drug store.

WHAT'S YOUR FACE WORTH?

Sometimes a fortune, but never, if you have a sallow complexion, a jaundiced look, moth patches and blotches on the skin—all signs of Liver Trouble. But Dr. King's New Life Pills give Clear Skin, Rosy Cheeks, Rich Complexion. Only 25 cents at S. J. Hodgkinson's drug store.

Take Notice.

H. F. PAVOLA INFORMS THE PUBLIC THAT he is ready and able to make the finest pair of boots and shoes that were ever made in the State of Nevada, for can or marbles. I have secured one of the finest workmen from San Francisco and I calculate always to do high grade work as long as I receive the patronage of the public. The work speaks for itself. Repairing neatly done. My place of business, No. 31 Commercial Row, Masonic Building. Sept 21-1m

NOW IN STOCK.

Planos, the world renowned Steck, known as the old reliable, also the celebrated Everett, which was played in New York City in Steinway Hall and won the favor of the audience. We also have cheaper planos to suit all classes and terms, the most reasonable.

Our motto is square dealing, looking for future patronage.

THE WILEY H. ALLEN CO., Singer Sewing Machine Office, O'Connor block.

T. S. McKinley, manager.

BRAN-FOOD NONSENSE.

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet, however good your food may be, its nutrition is destroyed by indigestion or dyspepsia. You must prepare for their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get Dr. G. G. Green's reliable remedies at Hodgkinson's drug store.

Get Green's Special Almanac.
